# CIS 3760 – Software Engineering
## Instructor: Prof. S. Scott
# Individual Accountability Report (IAR) Template

Q1. Student Name: David Solus

Q2. Student ID: 1053109

Q3. Associated Team Deliverable: Sprint 0

Q4. Section#, Team #: Section 1 Team 1

Q5. What were the main technical or methodological concepts and/or skills that were required to complete this team deliverable? (bulleted list is preferred):

- There were no notable technical or methodological concepts that were required to complete this team deliverable.

- I simply had to analyze the open source project and describe the system and how it was going to be improved and possible issues that we may come across.

Q6. What was your existing level of experience with these topics/skills before your team began working on this deliverable? (1-2 sentences):

- Lots of previous experience in CIS3750 and previous Software Design courses

- We did this type of stuff in every single course

Q7. Comment on your individual academic, methodological, or technical learning during this deliverable, and what additional learning may be needed to understand or be more competent with these topics in the future?

- Perhaps deeper analysis using math and statistics to figure out the most optimal solution to the system.

Q8. What specific contributions did you make to this team deliverable? This should include technical or project management contributions.

- Created the analysis

Q9. With whom did you collaborate for any of the above contributions (be specific)?

- Scott gave me another system to analyze

Q10. Comment on how well you managed your time over the time period allocated in the Course timetable to this team deliverable (i.e. the time between the prior team deliverable to this team deliverable).

- Time was well managed.
